☐ Records Management	☐ Data Preparation	☐

☐ Others (please specify):

List facilities and locations included in PCI DSS review: Alog Data Center - Hosted Data Center - São Paulo, Brazil

Part 2b. Relationships

Does your company have a relationship with one or more third-party service providers (for example, gateways, web-hosting companies, airline booking agents, loyalty program agents, etc.)? ☒ Yes ☐ No

Part 2c. Transaction Processing

How and in what capacity does your business store, process and/or transmit cardholder data? Sotech Servicos em Informatica Ltda. is responsible for providing intermediation of transactions between merchants and acquirers. During the transaction intermediation there are the cardholder transmission and processing. Sotech Servicos em Informatica Ltda. does not store cardholder data.

Please provide the following information regarding the Payment Applications your organization uses:

Payment Application in Use	Version Number	Last Validated according to PABP/PA-DSS
V$Pague	3.0.0	11/06/2014

Part 3. PCI DSS Validation

Based on the results noted in the Report on Compliance ("ROC") dated *14 Dec 2014*, Carlos Cabral asserts the following compliance status for the entity identified in Part 2 of this document as of *14 Dec 2014* (check one):

☒ **Compliant:** All requirements in the ROC are marked "in place[1]," and a passing scan has been completed by the PCI SSC Approved Scanning Vendor *Trustwave* thereby *Sotech Servicos em Informatica Ltda.* has demonstrated full compliance with the PCI DSS *2.0.*

☐ **Non-Compliant:** Some requirements in the ROC are marked "not in place," resulting in an overall **NON-COMPLIANT** rating, **or** a passing scan has not been completed by a PCI SSC Approved Scanning Vendor, thereby   has not demonstrated full compliance with the PCI DSS.

  Target Date for Compliance:

  An entity submitting this form with a status of Non-Compliant may be required to complete the Action Plan in Part 4 of this document. *Check with the payment brand(s) before completing Part 4, since not all payment brands require this section.*

Part 3a. Confirmation of Compliant Status

QSA and Service Provider confirm:

☒	The ROC was completed according to the *PCI DSS Requirements and Security Assessment Procedures*, Version *2.0*, and was completed according to the instructions therein.
☒	All information within the above-referenced ROC and in this attestation fairly represents the results of the assessment in all material respects.
☒	The Service Provider has read the PCI DSS and recognizes that they must maintain full PCI DSS compliance at all times.
☒	No evidence of magnetic stripe (that is, track) data[2], CAV2, CVC2, CID, or CVV2 data[3], or PIN data[4] storage after transaction authorization was found on ANY systems reviewed during this assessment.

Part 3b. QSA and Service Provider Acknowledgments

---

[1] "In place" results should include compensating controls reviewed by the QSA. If compensating controls are determined to sufficiently mitigate the risk associated with the requirement, the QSA should mark the requirement as "in place."

[2] Data encoded in the magnetic stripe or equivalent data on a chip used for authorization during a card-present transaction. Entities may not retain full magnetic stripe data after transaction authorization. The only elements of track data that may be retained are account number, expiration date, and name.

[3] The three- or four-digit value printed on the signature panel or face of a payment card used to verify card-not-present transactions.

[4] Personal Identification Number entered by cardholder during a card-present transaction, and/or encrypted PIN block present within the transaction message.

Signature of Service Provider Executive Officer ↑	***Date:***
